

MCGUFFIN M E D I A N

EVAN GRIFFITHS

D.O.B: 14th November 1991

Flat 2 Richmond House, 18 Westgate, Chichester, West Sussex PO19 3EU

I recently graduated with a BA Hons in Digital Film Production and Screen-writing and I have a strong passion for cinematography and working behind the camera, along with a desire to direct films as well.

During my three years at university I have worked on variety of short films, both as part of my university course as well as independently via the production company, "Kind Of? Films", started up by some fellow film-making students and I.

I made sure to use my time at university to learn about the different areas of filming as, I felt this would help me understand how others around will be working on set, and if I were to direct it would give me a better understanding of what is required for each department.

I am always eager to learn more about the craft of cinematography and directing and I am willing to seize every and all opportunities that will help me with this endeavour.

EXPERIENCE/VOLUNTEERING

SEPTEMBER 2019 - PRESENT
